

Example: A stiff neck after sleep and tennis

Tennis · Stiff · Since yesterday

Current 3D view · Muscles and skeleton · Z-Anatomy / BodyParts3D
Visible pins: 1, 2. All pin notes are listed below.

YOUR NOTE

My left upper trap and high left neck feel stiff after sleeping on my side and stomach. I noticed it again while serving in tennis. Looking down slowly and turning left brings it on.

HIGHLIGHTED SPOTS

- 1** **Transverse part of trapezius muscle** · Neck
Stiff across the left upper trap after serving.
- 2** **Ascending part of trapezius muscle** · Neck
High left neck when looking down or turning left.
